Arthur Fawcett was in the police
court Monday morning on a charge of
intimidation. He entered a plea of guilty.
Fawcett was brought to the police
court Saturday night in a "pickled"
condition and his bloody face and
disheveled hair led the police to believe he
had been engaged in a fight. Fawcett
told the police he was under the influence
of liquor. The court ordered that the
original sentence of thirty days in jail
be put into effect immediately. When
the court gave Fawcett a thirty-day
sentence given Fawcett by the local
court within the past four months.

for six months not long ago, told the
court that he would rather be in jail
than be on probation. Probation Of-
ficer Elmer M. Young entered a charge
of violation of probation, stating that
on the past two Saturday nights when
Lyons reported, he was under the in-
fluence of liquor. The court ordered that

tence given Lyons by the local court

her husband and came to North Willimantic
later in the day from Providence.

Willimantic is to have a two platform
system at Engine company No. 1, three
men being added to the personnel
at that station, making the total regular
firemen eight. This action was taken at
the common council meeting Monday
night when a resolution was presented
by the fire committee. It was explained
that the cost of maintaining this depart-
ment could be done within the appropri-
ation. Fire Chief Wade U. Webster told
how this new system would work and

added that with the two platform system
such a thing as happened only two weeks
ago could not happen again. At this
time only one man was left to take care
of the apparatus. Up to now five men
have been on regular duty, and one five
days of the week only four men were on
duty as one man was off one day in
seven. When another man was out at
meals there remained but three regular
men at the station. With the two platform
system four men will be on duty all the
time and the men will work two shifts
per day of 12 hours each with no time
off for meals. Every week they will
change from day to night shifts.
Another resolution passed was the
police department the use of a Gamewell
police signal box, equipped with colored
lights and telephones. This signal to
be erected on Main street opposite the
traffic officer's stand. With this signal it
will be possible for the chief to keep in
touch with the police officer and at times
when the police station is vacant officers
can reach an officer by connecting with
the Main street telephone.

A third resolution passed gave Mayor
Gates the power to select three aldermen
whose duties it would be to inquire into
the prices of gas and electricity furnished
Willimantic by the Rockville Willimantic
Lighting company, and if in their judg-
ment it was necessary to make applica-
tion to the public utilities commission
and do all other things necessary.

The committee on fire department was
given permission to purchase one dozen
rubber coats and one dozen pairs of rub-
ber boots.

The meeting was called to order at 8
o'clock by Mayor Charles A. Gates, and
Attorney P. J. Danahy was given op-
portunity to speak for Solomon Haddad,
who wished to construct a lunch room
measuring 15x15 feet on land near the
corner of Broad and Main streets. He
had been refused permission to build by
Building Inspector Wade U. Webster,
who claimed the building he desired to
construct was not a fireproof structure.
By a vote of 10 to 2 the city commis-
sioner stated that the city
charter specified that the building in-
spector was judge only about the walls
and roofing of the building and as to
whether the building was a proper main-
tenance in the quarter he had no right to
refuse permission to Haddad to build. It
was voted that the matter be left in the
hands of the fire committee, building in-
spector and the corporation counsel.

The usual reports were read by Clerk
Albert C. Scripps and were accepted.
The report of Police Chief Paul J. Kil-
buck was accepted. The report of City
Health Officer Dr. W. P. Keating was
accepted as follows: Scarlet fever, 4, is-
nus, 1, measles, 1, diphtheria, 1, sub-

\$1,375.45. The resignation of Clinton T.
Wood, call member of Truck company
No. 1, was accepted. H. Haddad was
applied for, all man for Hook and
Ladder company No. 1. His application
was accepted. It was voted that the city
borrow \$7,000 as needed. The regular
bills were read and accepted. A num-
ber of resolutions were presented and
journalism came at 10:30. Two long
sessions prolonged the meeting, which was
one of the busiest of the year.

Victor Cotton will be charged with
breach of the peace at police court this
(Tuesday) morning. He was arrested
Monday afternoon by Chief Kilbuck
upon complaint of a family on Raynes
court. The young man, who was taking
orders for crayon pictures, had obtained
entrance to their home and refused to
leave when requested. He is now in jail,
permitting him to sell in this city.

a final attack on republican congressional
policies.

Announcement by Senator McCumber,
Republican, North Dakota, that a vote
on the Fordney bill probably would be
obtained tomorrow night.

A statement by Chairman Fordney of
the house ways and means committee
indicating the intention of republi-
can leaders to present legislation re-
solving the permanent tariff through the
extra session before attempting consideration
of taxation questions.

The Fordney bill was pulled out of its
pigeon hole for several hours of debate
late in the day. Nothing came of it,
however, for when the session ended no
definite progress had been made.

Senator Underwood was reluctant about
his assurances of a presidential veto. He
declined to say whether it came from the
president direct and refused to answer
questions relative to the form in which
the information came.

The statement of the minority leader,
however, was the cause of speculation
among senators on both sides of the
emergency tariff question. It was gen-
erally accepted that as a result of the
White House attitude the democrats were
more than willing to let the measure go
to a vote where all senators' records
could be preserved.

Plans of the republican leaders con-
cerning revision of the permanent tariff
were made public in the form of a letter
by Mr. Fordney to Representative Peck,
Republican, Wisconsin, in connection
with the immigration situation at New
York.

"The only possible way to pre-
vent such cases would be to quarantine
all third class passengers at the port of
embarkation in Europe for the period
possible inspection—fourteen days for
smallpox and twenty-one days for typhus.
At present the laws prevent detention for
more than a few days and there are no
facilities for caring for these persons."

"Inspection in Europe on this whole is
very good, and there is no danger of a
large number of typhus and small pox
cases reaching America. The general phys-
ical character of the immigrants is
good. Most of the men are former sol-
diers."

Chairman Fordney also reported that
the committee's mind was made up with
reference to a sales tax and said that full consideration was to be
given all revenue suggestions and that
technical experts would be brought in for
advice before action of any
kind was taken.

IMMIGRATION INSPECTION

which has resulted in extreme laxity of

machinery of his administration and the
conversations with them this week are
expected to relate to many prospective

It is also likely that such questions
as the inaugural address and plans for
special sessions of congress will be
considered. In describing the purpose of
the visit of his two managers, Mr. Har-
